Checking your statements

Please check your statement every month. Please call us as soon as possible, and preferably within four weeks, with any queries.

Interest

We don't charge interest on new purchases if you pay your balance in full and on time. If you don't do so, interest charges are applied on the following month's statement. We calculate interest using the average daily balance for the statement period and the interest rates shown on the statement. (This means that interest isn't just charged on the outstanding balance shown on the statement). The amount of interest therefore increases the longer the payment of cleared funds is delayed (even before the monthly payment date). Where applicable, the interest charge for the period between statement date and full repayment appears on the following month's statement.

Indicative interest

This is an indication of how much interest will show on your next statement based on the following assumptions:

- The minimum payment amount is received on your next due date
- You don't make any new transactions
- The rates of interest don't change

The actual interest charged will be different if any of these assumptions are incorrect.

To view our charges please refer to your cardholder guide, credit card terms leaflet, visit rbs.co.uk or call us on **0370 154 1234**, Relay UK **18001 0370 154 1234** (Monday to Friday 8am–5pm).

Interest Charging Information	You will not pay interest on new purchases shown on your statement if you pay your balance in full and on time. Otherwise, the period over which interest is charged will be as follows:

	Cash Advances	date debited to your account	paid in full
	Balance Transfers	date debited to your account	paid in full
Allocation of Payments	If you do not pay off your balance in full, payments the Bank receives are applied towards the repayment of the items on the Business Account in the following order: • To reduce sums shown on your most recent monthly statement, according to their interest rates, with the highest rate paid first; and • If any payment exceeds your most recent monthly statement balance, the excess will then be applied to reduce sums charged to your card but not yet shown on any monthly statement. This is also done according to interest rates, with the highest interest rate paid first. If parts of either of the balance referred to above have the same interest rates, sums on which interest is charged on interest will reduce first.
